

ASHISH ACHARYA

Balaju, Kathmandu | acharya2074@gmail.com | Portfolio

SUMMARY

I'm a passionate and motivated CSIT student with a strong foundation in computer science. I have excellent problem-solving skills and a keen interest in technology and software development. My academic projects have allowed me to hone my coding abilities, teamwork, and project management skills. I'm always eager to learn and contribute in any role that challenges me and helps me grow

SKILLS

- Programming Languages: C, C++
- Web Development: HTML, CSS, JavaScript
- Framework & Platforms: React.js , Node.js, Express.js
- Database Management: MySQL, MongoDB, Firebase
- Tools & IDE: Visual Studio Code, Postman

EDUCATION

Bsc.CSIT | Tribhuwan University

2078 - present

- New Summit College

High School | NEB

2076 - 2078

- National School of Science

PROJECT

Hotel Booking App | React Project

- Built a fully responsive hotel booking frontend using React, featuring dynamic hotel listings, search and filter by location and date, and an intuitive booking interface. Integrated Clerk for structured user authentication (UI level), enabling secure access flow. Developed reusable components and managed global state using Context API. Applied modern UI design with CSS and Tailwind CSS to enhance user experience.
Tech Used: React.js, React Router, Context API , CSS/Tailwind/Bootstrap

Personal Portfolio Website | Front-End Project

- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript. Features include a clean, modern design, interactive UI elements, and cross-browser compatibility to effectively showcase projects and skills. Implemented with modular code and optimized performance for enhanced user experience.
Tech Used: HTML, CSS, JavaScript
